Seeking a Software Developer position where I can leverage my skills to build scalable, user-centric applications. I am eager to contribute to a dynamic team by developing efficient backend systems and driving innovation and business growth.

Education

Sanpada College of Commerce and Technology - Navi Mumbai , B.Sc-IT   June 2020 – August 2023
- CGPA: 9.1/10
- **Coursework:** Covered programming, data structures, algorithms, database management, web technologies, operating systems, and software development methodologies.

Experience

Software Developer, TalentCo HR Services LLP – Mulund, Mumbai   June 2024 – Present
- Developed and maintained backend services for an in-house HRMS system using Node.js, Express.js and MySQL.
- Successfully built and optimized core HRMS modules, including attendance, leave, onboarding, payroll, and offboarding .
- Designed and implemented RESTful APIs to ensure efficient data processing and seamless integration with frontend applications. Optimized database queries and schema design for better performance and scalability.
- Developed ATS (Recruitment system) Backend from scratch to support the company in-house recruitment team.

MERN Stack Trainee , Almabetter – Bengaluru (Remote)   September 2023 – June 2024
- As a MERN stack trainee, gained hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js, including RESTful APIs and user authentication.
