PROFESSIONAL SUMMARY

Full Stack Developer with 1.5+ years of experience building scalable web applications and RESTful APIs using Node.js, Express.js, MySQL, and React.js. Owns the complete Software Development Life Cycle (SDLC) from requirements and system design to testing, deployment, and maintenance. Delivered an in-house HRMS platform and ATS backend from scratch, with strong skills in database design, query optimization, JWT authentication, and client and QA collaboration.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL, HTML5, CSS3

Backend: Node.js, Express.js, RESTful API Development, API Integration, JWT Authentication, MVC Architecture

Frontend: React.js, Redux Toolkit, Tailwind CSS, Material UI, Responsive Web Design

Databases: MySQL, MongoDB, Database Design, Schema Design, Query Optimization

DevOps & Deployment: DigitalOcean, PM2, Hostinger, Vercel, Git, GitHub, Linux Server Management

Tools & Methodologies: Postman, VS Code, SDLC, Software Testing, Requirement Analysis, Team Collaboration

PROFESSIONAL EXPERIENCE

Software Developer (Full Stack / Backend)

June 2024 – Present

TalentCo HR Services LLP, Mulund, Mumbai

- Led end-to-end development of the company's in-house HRMS (Human Resource Management System) from scratch, owning all SDLC phases: requirement gathering, system design, development, testing, and production deployment.
- Developed core HRMS modules including attendance, leave management, employee on boarding, payroll, and off boarding using Node.js, Express.js, and MySQL.
- Designed scalable RESTful APIs for seamless frontend-backend integration; optimized database queries and schema design to improve performance and scalability.
- Built the backend of the company's ATS (Applicant Tracking System) from scratch, helping the in-house recruitment team streamline end-to-end hiring workflows.
- Collaborated with cross-functional teams across QA testing cycles and communicated directly with clients to gather requirements and deliver features.
- Managed server infrastructure and production deployments using DigitalOcean, PM2, Hostinger, and Git version control.

MERN Stack Trainee

September 2023 – June 2024

AlmaBetter, Bengaluru (Remote)

- Completed an intensive MERN stack (MongoDB, Express.js, React.js, Node.js) program; built and deployed multiple web applications with RESTful APIs, JWT authentication, and responsive UI components.

PROJECTS

Entertainment App / React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, TMDB API

[GitHub](#) | [Live](#)

- Built a full-stack entertainment platform with secure user authentication, movie and TV series listings, detailed views, and bookmarking, integrating the TMDB API.

SocialWave – Social Media Platform / Node.js, Express.js, React.js, MongoDB, JWT, Material UI

[GitHub](#)

- Developed a social networking application with real-time feeds, post sharing, friend management, and JWT-secured REST APIs.

ResumeXpress – Resume Builder / React.js, Redux Toolkit, Material UI

[GitHub](#) | [Live](#)

- Created a multi-step resume builder with live preview and PDF download, using Redux Toolkit for state management.

YouTube Clone / React.js, Material UI, Rapid API

[GitHub](#)

- Built a video platform with search, category browsing, video suggestions, and comments, consuming third-party REST APIs via Rapid API.

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT)

June 2020 – August 2023

Sanpada College of Commerce and Technology, Navi Mumbai | CGPA: 9.1/10

Coursework: Data Structures and Algorithms, DBMS, Web Technologies, Operating Systems
